Subject: New Section 4 literature tagged in HAWC
[New-IARC Vol 112-refs.xlsx](#)

Dear all,

Hope you all had/are having safe trips to Lyon!

All literature searches for all compounds were updated in HAWC on 11 Feb and again this morning. I've appended a spreadsheet of newly included studies, which can also be identified using HAWC—>Section 4—>New. Several of the identified studies are actually “old”, but were identified likely due to updated Mesh tagging by PubMed.

All of these have also been tagged into specific topics, listed in the spreadsheet for the recent publications, and which can also be visualised using the HAWC tool.

See you all tomorrow,
Best,
Kate
